

Mr. Korn Original 5er

*Softened barley,
oat and corn grains*

Zeelandia

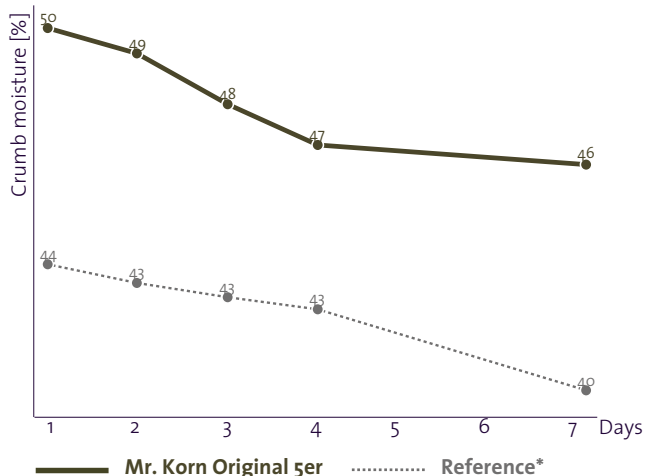

Creating Possibilities

Mr. Korn Original 5er

Barley grains, oat grains and corn groats for a rich multigrain experience. The grains deliver a unique product appearance, flavour and taste. Mr. Korn Original 5er saves valuable time in the bakery by avoiding having to soak the grains before use.

Why Mr. Korn Original 5er?

You can vary the amount of grains and seeds used. Or you could even use more than one Mr. Korn product in your recipe for a unique flavour and texture. Mr. Korn products are softened and stabilised, which means that they will not take moisture from a baked product. In fact, by adding Mr. Korn, bread and rolls stay fresh and moist, for longer.

*Reference: A complete multicereal bakery mix with grains and seeds, in powder form.
