

Mr. Korn Natura

*Softened mixed seeds
and grains*

Zeelandia

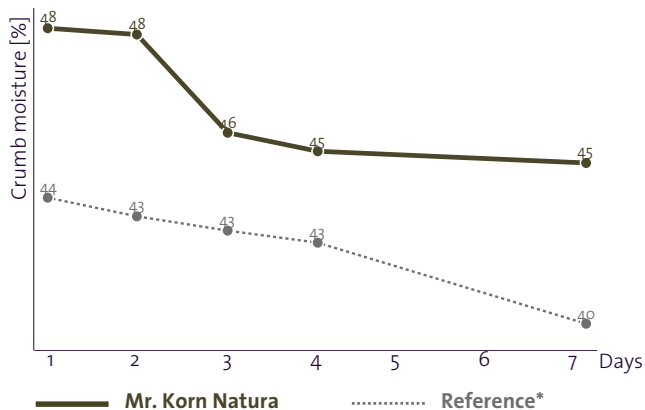

Creating Possibilities

Mr. Korn Natura

Zeelandia's textural development expertise offers rye and wheat grains, with linseed and sunflower seed for a unique product appearance, flavour and taste. Mr. Korn Natura saves valuable time in the bakery by avoiding soaking the grains and seeds before use.

Why Mr. Korn Natura?

You can vary the amount of grains and seeds used. Or you could even use more than one Mr. Korn product in your recipe for a unique flavour and texture. Mr. Korn products are softened and stabilised, which means that they will not take moisture from a baked product. In fact, by adding Mr. Korn, bread and rolls stay fresh and moist, for longer.

*Reference: A complete multicereal bakery mix with grains and seeds, in powder form.

Key Facts

MR. KORN NATURA	
Ingredients:	rye grains, wheat grains, linseeds, sunflower seeds, acids, salt
Appearance:	softened grains and seeds
Acidity:	pH 3.4 - 3.9
Dosage:	50 - 100% on flour
Shelf-life:	6 months in original packaging
